BASF Increases Price for Vitamin E for Feed

Source: BASF AG
(dated 27/05/2010)

Ludwigshafen, Germany, 27 May 2010 - BASF increases the price for vitamin E for feed applications by EUR 0.80 per kilogram (calculated as Lutavit® E 50 grade) with immediate effect. The price increase is necessary due to current market conditions.

All existing contractual obligations will be honored.

BASF's Nutrition Ingredients business unit is a leading supplier of food ingredients and feed additives. The product portfolio for animal nutrition includes vitamins, carotenoids, enzymes, organic acids and others. BASF offers products of outstanding quality produced with modern, state-of-the-art technologies. BASF also combines technical services and scientific expertise to meet the highest demands and to deliver the best value to the industry. Premium formulations are a key strength that has made BASF a leader in the industry.
